

Set up of wired and wireless network eduroam

To connect to wired or wireless network at college, please download configuration tool from eduroam.tuzvo.sk (cat.eduroam.org) by clicking on button "Click here to download your eduroam® installer" and select Technical University in Zvolen.

The installation wizard will ask your network credentials. Insert it as UIS_login@tuzvo.sk and corresponding University Information System (UIS, is.tuzvo.sk) password.

Example:

Login: xnovak

Heslo: 45Utg58jK

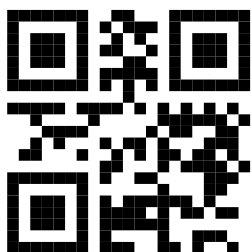

Usage when connecting

Login name: xnovak@tuzvo.sk

Password: 45Utg58jK

Beware! If you change your UIS password it will change for eduroam too (wired/wifi network at campus). It is necessary to change login credentials in network settings afterward.

The use of private wireless routers at college is forbidden!
